NETHERLANDS PROPOSAL TO EXPORT ELECTRONIC VALVES TO POLAND27th July 1959

Present: Belgium(Luxembourg), Canada, France, Germany, Italy, Japan,
Netherlands, United Kingdom, United States.

References: COCOM 3598 and 3633.

1. The UNITED STATES Delegate confirmed having informed the Netherlands Delegate and the Secretariat, on the day following the Committee's previous meeting, that his authorities had no objection to this export. As he had already informed his Netherlands colleague, his authorities had nevertheless - without making this a condition - requested that the Netherlands authorities should be urged to seek assurances that the electronic valves would not be incorporated in radar equipment on board vessels to be exported to the Soviet Union.

2. The NETHERLANDS Delegate thanked his United States colleague. As he had already pointed out to him, this point had been taken care of, as indicated in the original memorandum. He had nevertheless transmitted the message to his authorities.

3. The CHAIRMAN noted that there had been no objections to the Netherlands request.
